

CSE 410 - B2 Online

1. The camera system remains same as the offline-1.
2. Draw the solar system consisting of SUN and three planets MERCURY, VENUS, EARTH (with MOON) in 3D. Use different color for them.
3. Each planet will rotate in its ellipsoidal orbit around the SUN. You can show the orbit if you want.
4. The moon will rotate in its circular orbit around the EARTH.
